Paris, 26th of October 2010,

Dear colleagues,

On behalf of Angelo Moreno (ENEA – Italy) and myself (Chimie-ParisTech – France), we would like to invite you to participate to the:

**"2011 International Workshop on Molten Carbonates & Related Topics"
(MCFC, DCFC, SOFC/MCFC, CO₂ capture...)
that will be held in
Chimie-ParisTech (in joint organization with ENEA), Paris, France
21-22 of March 2011**

As you well know, molten carbonates science & technology is in the heart of several important applications in the field of energy generation and carbon dioxide capture and exploitation. It is also directly related to the carbon cycle, in continuity with the highly fruitful symposium held in Naples on 12-13 July 2010. This workshop is addressed to researchers, engineers from industry, developers and European and international players in the field of energy production with reduced CO₂ emission.

The fields considered are the following:

- Molten carbonate science: experimental and theoretical approach.
- Molten carbonate fuel cell (MCFC).
- Direct Carbon Fuel Cell (DCFC).
- Hybrid Direct Carbon Fuel Cell (HDFC).
- Hybrid fuel cells with composite electrolytes (solid oxide and carbonates).
- Carbon dioxide capture and/or separation.
- Other topics such as catalysis, clean-up, carbon deposition, synthesis of materials, thermal treatments.

Plenary lectures will be given by international specialists in the mentioned fields.

Oral presentations will be given by researchers and developers.

Scientific and organizing committees will be defined within 2 weeks.

In order to prepare the infrastructure of this important event, we would like to know if we could count on your presence and if you wish to present an oral presentation or a poster.

We will discuss with J. Power Sources for a Special Issue with peer-reviewed papers.

Practical details will be given within 2-3 weeks.

Fees, excluding travel and hotel, are of 150 Euros (including meals, dinner and documents).

With my best regards,

Professor Michel Cassir

**"2011 International Workshop on Molten Carbonates & Related Topics"
(MCFC, DCFC, SOFC/MCFC, CO₂ capture...)
Chimie-ParisTech, Paris, France
21-22 of March 2011**

A scientific pole in the heart of the Latin Quarter in Paris

ORGANIZING COMMITTEE

Chair: Prof. Michel Cassir (Chimie-ParisTech, France): michel-cassir@chimie-paristech.fr
Chair: Dr. Angelo Moreno (ENEA, Italy): angelo.moreno@enea.it
Dr. Stephen Mc Phail (ENEA, Italy): stephen.mcphail@enea.it
Dr. Armelle Ringuedé (Chimie-ParisTech, France): armelle-ringuede@chimie-paristech.fr
Dr. Viviana Cigolotti (ENEA, Italy): viviana.cigolotti@enea.it
Dr. Virginie Lair (Chimie-ParisTech, France): virginie-lair@chimie-paristech.fr
Valérie Albin (Chimie-ParisTech, France): valerie-albin@chimie-paristech.fr
Marine Tassé (Chimie-ParisTech, France): marine-tasse@chimie-paristech.fr

SCIENTIFIC COMMITTEE (will be completed)

Prof. J.R. Selman (Illinois Institute of Technology, Chicago, USA)
Prof. Kenichiro Ota (Yokohama University, Japan)
Prof. John Irvine (St-Andrews University, United Kingdom)
Dr. Carina Lagergren (Royal Institute of Technology, KTH - Sweden)
Dr. Panagiotis Tsiakaras (University of Thessaly, Patras, Grece)
Dr. Salvatore Freni (CNR – ITAE, Messina, Italy)
Dr. Bin Zhu (Royal Institute of Technology, KTH, Sweden)
Dr. Mauro Scagliotti (RSE – Ricerca sul Sistema Energetico SpA – Milan – Italy)
Dr. Henri Groult (University of Paris 6 – France)

PRE-REGISTRATION FORM

**"2011 International Workshop on Molten Carbonates & Related Topics"
(MCFC, DCFC, SOFC/MCFC, CO₂ capture...)
Chimie-ParisTech, Paris, France
21-22 of March 2011**

Name:

Organization:

Address (including tel. and e-mail):

Will you give a presentation:

Yes

No

Title of the presentation:

Will you present full-length paper for a publication probably in J. Power Sources

Yes

No

Answer expected before the 23th of November
